Asset Model Import FlexConnector Release Notes

The Asset Model Import FlexConnector allows you to develop a model import connector to import the asset model data from a file. This enables you to create and maintain ESM Network Model data, and keep this data in sync with the data in your Asset Management system. Based on configuration, files are read by the connector and converted to XML based on parser attributes. Upon generation, the XML files are automatically transferred by the connector to the ESM server.

Note: CSV is the only supported file format.

Supported Platforms

The Asset Model Import FlexConnector supports the following platforms:

- Microsoft Windows Server 2008 R2, 64-bit
- Microsoft Windows Server 2012 R2, 64-bit
- Red Hat Enterprise Linux (RHEL) 6.8, 64-bit
- Red Hat Enterprise Linux (RHEL) 7.3, 64-bit

See the HPE ArcSight ESM Support Matrix for detailed platform support information.

Release Contents

The files included in this release are:

File Name	Description
AssetModelImportConn_RelNotes_7.5.0.7987.0.pdf	Release notes (this document).
AssetModelImportConn_DevGuide_7.5.0.7987.0.pdf	Developer's guide.
ArcSight-7.5.0.7987.0-AssetModelImportConnector- Linux64.bin	Installer for Linux 64-bit systems.
ArcSight-7.5.0.7987.0-AssetModelImportConnector- Win64.exe	Installer for Windows 64-bit systems.

What's New in this Release

- New build.
- New RHEL 7.3 platform support.

Installing the Asset Model Import FlexConnector

The Asset Model Import FlexConnector is supported for installation on Windows and Linux platforms.

Install and use the Asset Model Import FlexConnector that is provided with ESM 6.11.0 release. That is the version of the connector that is tested and certified to work with ESM. Do not use previously-supplied versions of the Asset Model Import FlexConnector with ESM 6.9.1.

For detailed instructions about installing the connector, see the *ArcSight Developer's Guide for Asset Model Import FlexConnector*. You can download the guide from the same location from which you download the installation executable at <https://softwaresupport.hpe.com/>.

Note: Install the model import connector as a non-root user.

Known Limitations

The following is the known limitation for this connector:

- The destinatin Event Broker is not supported at this time.

Send Documentation Feedback

If you have comments about this document, you can [contact the documentation team](#) by email. If an email client is configured on this system, click the link above and an email window opens with the following information in the subject line:

Feedback on Release Notes (Asset Model Import FlexConnector 7.5.0.7987.0)

Just add your feedback to the email and click send.

If no email client is available, copy the information above to a new message in a web mail client, and send your feedback to arc-doc@hpe.com.

We appreciate your feedback!
