

## **Micro Focus Fortify Security Assistant Plugin for IntelliJ IDEA v23.1**

### Release Notes

Document Release Date: May 22, 2023

Software Release Date: May 18, 2023

### **Update**

This release of the Fortify Security Assistant for IntelliJ IDEA adds support for:

- **IntelliJ IDEA 2023.x**
- **Integration with the IntelliJ certificate management system.**

When IntelliJ IDEA encounters an untrusted certificate, it prompts you to add the certificate to a secondary trust store located in your IDEA home directory. In environments where you are not authorized to make changes to the system-wide JVM certificate trust store (`cacerts`), you can use IntelliJ IDEA's certificate storage area.

To use IntelliJ IDEA's certificate storage area, select the **Use IDE certificate management system** check box in Settings.

The Fortify Security Assistant Plugin for IntelliJ 23.1 is available from the JetBrains marketplace.

### **Documentation**

For more information, refer to the documentation for the 23.1 release.
