Trademark Notices

Adobe™ is a trademark of Adobe Systems Incorporated.

Microsoft® and Windows® are U.S. registered trademarks of Microsoft Corporation.

UNIX® is a registered trademark of The Open Group.

This product includes an interface of the 'zlib' general purpose compression library, which is Copyright © 1995-2002 Jean-loup Gailly and Mark Adler.

Documentation Updates

HPE Big Data Support provides prompt and accurate support to help you quickly and effectively resolve any issue you may encounter while using HPE Big Data products. Support services include access to the Customer Support Site (CSS) for online answers, expertise-based service by HPE Big Data support engineers, and software maintenance to ensure you have the most up-to-date technology.

To access the Customer Support Site

- go to <https://customers.autonomy.com>

The Customer Support Site includes:

- **Knowledge Base.** An extensive library of end user documentation, FAQs, and technical articles that is easy to navigate and search.
- **Support Cases.** A central location to create, monitor, and manage all your cases that are open with technical support.
- **Downloads.** A location to download or request products and product updates.
- **Requests.** A place to request products to download or product licenses.

To contact HPE Big Data Customer Support by email or phone

- go to <http://www.autonomy.com/work/services/customer-support>

Support

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent updates or to verify that you are using the most recent edition of a document, visit the Knowledge Base on the HPE Big Data Customer Support Site. To do so, go to <https://customers.autonomy.com>, and then click **Knowledge Base**.

The Knowledge Base contains documents in PDF and HTML format as well as collections of related documents in ZIP packages. You can view PDF and HTML documents online or download ZIP packages and open PDF documents to your computer.

Contents

New in this Release 5

Resolved Issues 6

Documentation 7

New in this Release

- IDOL Admin now supports the following browsers:
 - Internet Explorer 11 and later
 - Edge
 - Chrome (latest version)
 - Firefox (latest version)
- If the amount of server capacity used is greater than 70%, the IDOL Admin interface displays capacity information on the **Overview** tab on the Status page.
- If IDOL Admin is deployed against a License Server, you can view information on aggregated resource usage and limits in the **Licenses** section in the Control menu.

Resolved Issues

- An issue with the `PurgeDatastore` action in Internet Explorer 11 was resolved.
- Missing tabs and pages now display when IDOL Admin is deployed against a DAH.
- An issue was resolved whereby IDOL Admin terminated unexpectedly on startup when deployed against a DAH in non-mirror mode pointing at two Content instances with different language settings.
- The query on the **Test Action** tab in the Console section now allows for any language type, rather than just the default language type.
- An issue was resolved whereby IDOL Admin for a DAH did not load when the DAH was configured with a CFS distributed engine.

Documentation

The following documentation was updated for this release.

- *IDOL Admin User Guide*
