Contents

New in this Release

This section lists the enhancements to IDOL Site Admin version 10.9.0.

- **New release packaging**. IDOL Site Admin is now available as a single multiplatform `.zip` file, available on the HP Autonomy Download Center under the **ALL** Platform.

  You must provide your own executables for the Community, Content, Controller, and Coordinator components (Controller and Coordinator are available in the Service Control section of the Download Center).

  Note: The list of supported platforms remains unchanged.

Resolved Issues

There were no resolved issues in IDOL Site Admin version 10.9.0.

Documentation

The following documentation was updated for this release.

- *IDOL Site Admin User Guide*

- *IDOL Site Admin Installation Guide*

- *Controller Reference*

- *Coordinator Reference*

You can retrieve the most current product documentation from the HP Autonomy Knowledge Base on the Customer Support Site.

A document in the Knowledge Base displays a *version number* in its name, such as *IDOL Server 7.5 Administration Guide*. The version number applies to the product that the document describes. The document may also have a revision number in its name, such as *IDOL Server 7.5 Administration Guide Revision 6*. The revision number applies to the document and indicates that there were revisions to the document since its original release.

Autonomy recommends that you periodically check the Knowledge Base for revisions to documents for the products your enterprise is using.

To access Autonomy documentation

1. Go to the Autonomy Customer Support site:

   https://customers.autonomy.com

2. Click **Login**.

3. Type the login credentials that you were given, and then click **Login**.

   The Customer Support Site opens.

4. Click **Knowledge Base**.

   The Knowledge Base Search page opens.

5. Search or browse the Knowledge Base.

   To search the knowledge base:

   - In the Search box, type a search term or phrase and click **Search**.

     Documents that match the query display in a results list.

   To browse the knowledge base:

- Select one or more of the categories in the **Browse** list. You can browse by:

  ○ **Repository**. Filters the list by Documentation produced by technical publications, or Solutions to Technical Support cases.

  ○ **Product Family**. Filters the list by product suite or division. For example, you could retrieve documents related to the iManage, IDOL, Virage or KeyView product suites.

  ○ **Product**. Filters the list by product. For example, you could retrieve documents related to IDOL Server, Virage Videologger, or KeyView Filter.

  ○ **Version**. Filters the list by product or component version number.

  ○ **Type**. Filters the list by document type. For example, you could retrieve Guides, Help, Packages (ZIP files), or Release Notes.

  ○ **Format**. Filters the list by document format. For example, you could retrieve documents in PDF or HTML format. Guides are typically provided in both PDF and HTML format.

6. To open a document, click its title in the results list.

   To download a PDF version of a guide, open the PDF version, click the Download icon in the PDF reader, and save the PDF to another location.

   To download a documentation ZIP package, click **Get Documentation Package** under the document title in the results list. Alternatively, browse to the desired ZIP package by selecting either the Packages document Type or the ZIP document Format from the **Browse** list.
