Documentation updates

The title page of this document contains the following identifying information:
- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

You can check for more recent versions of a document through the MySupport portal. Many areas of the portal, including the one for documentation, require you to sign in with a Software Passport. If you need a Passport, you can create one when prompted to sign in.

Additionally, if you subscribe to the appropriate product support service, you will receive new or updated editions of documentation. Contact your Micro Focus sales representative for details.

Support

Visit the MySupport portal to access contact information and details about the products, services, and support that Micro Focus offers.

This portal also provides customer self-solve capabilities. It gives you a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the MySupport portal to:

- Search for knowledge documents of interest
- Access product documentation
- View software vulnerability alerts
- Enter into discussions with other software customers
- Download software patches
- Manage software licenses, downloads, and support contracts
- Submit and track service requests
- Contact customer support
- View information about all services that Support offers

Many areas of the portal require you to sign in with a Software Passport. If you need a Passport, you can create one when prompted to sign in. To learn about the different access levels the portal uses, see the Access Levels descriptions.

Contents

New in this Release

The following new features were released in Google Drive Connector version 12.3.0.

- The IDOL NiFi Ingest connector supports guided setup, so that you can configure the connector step-by-step.

- Actions other than synchronize are now supported in IDOL NiFi Ingest. There are new NiFi processors that represent these actions.

Fetch action	Description	NiFi Ingest Processor
Collect	Retrieve items from the repository.	FetchGoogleDrive
Delete	Delete items from the repository.	DeleteGoogleDrive
Insert	Insert items into the repository.	PutGoogleDrive

- The connector supports the `identifiers` fetch action. This action can also return basic metadata for items in the drive. To see the metadata, set the action parameter `ShowMetadata`.

- Communications can be secured with TLS version 1.3.

Resolved Issues

There were no resolved issues in Google Drive Connector version 12.3.0.

Supported Operating System Platforms

Google Drive Connector 12.3.0 is supported on the following platforms.
