The only warranties for products and services of Micro Focus and its affiliates and licensors ("Micro Focus") are set forth in the express warranty statements accompanying such products and services. Nothing herein should be construed as constituting an additional warranty. Micro Focus shall not be liable for technical or editorial errors or omissions contained herein. The information contained herein is subject to change without notice.

This product includes components that use UI Bootstrap (<http://angular-ui.github.io/bootstrap/>), by Angular-UI team (<https://github.com/angular-ui?tab=members>) and contributors (<https://github.com/angular-ui/bootstrap/graphs/contributors>).

This product includes components that use Twitter Bootstrap (<http://getbootstrap.com/>), by @mdo (<https://twitter.com/mdo>) and @fat (<https://twitter.com/fat>).

This product includes software developed by the Apache Software Foundation (<http://www.apache.org/>).

## Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

You can check for more recent versions of a document through the [MySupport portal](#). Many areas of the portal, including the one for documentation, require you to sign in with a Software Passport. If you need a Passport, you can create one when prompted to sign in.

Additionally, if you subscribe to the appropriate product support service, you will receive new or updated editions of documentation. Contact your Micro Focus sales representative for details.

## Support

Visit the [MySupport portal](#) to access contact information and details about the products, services, and support that Micro Focus offers.

This portal also provides customer self-solve capabilities. It gives you a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the MySupport portal to:

- Search for knowledge documents of interest
- Access product documentation
- View software vulnerability alerts
- Enter into discussions with other software customers
- Download software patches
- Manage software licenses, downloads, and support contracts
- Submit and track service requests
- Contact customer support
- View information about all services that Support offers

Many areas of the portal require you to sign in with a Software Passport. If you need a Passport, you can create one when prompted to sign in. To learn about the different access levels the portal uses, see the [Access Levels descriptions](#).

Resolved Issues ..... 5

System Requirements ..... 6

Notes ..... 7

## New in this Release

Media Management and Analysis Platform has been enhanced with the following features:

- MMAP has a new system property, named `avalanche.vms.repository.dataUri`. You can use this to configure the location of the object store that contains information about your cameras, channels, videos, and recorders. The default location on Linux is `/opt/mmap/repository`.

## Resolved Issues

There were no resolved issues in Media Management and Analysis Platform version 12.3.0.

# System Requirements

This section describes the system requirements for Media Management and Analysis Platform. The Media Management and Analysis Platform must be hosted by:

- One of the following application servers:
  - JBoss enterprise application server (JBoss EAP 7.2)
  - WildFly 14.0.1.Final application server.
- A fully compliant Java 8 Runtime Environment.

## Dependencies

This section describes the dependencies for Media Management and Analysis Platform:

- IDOL Media Server version 12.3.0. MMAP 12.3.0 is not compatible with earlier versions of IDOL Media Server.

## Minimum Server Requirements

The minimum server requirements depend on many variables, such as the frequency of requests that Media Management and Analysis Platform must serve. The following are minimum requirements but there may be additional requirements. Micro Focus recommends that you refer to the documentation for JBoss EAP or WildFly.

- 1.4 GHz dual-core processor
- 4 GB RAM
- 20 GB free disk space

## Notes

- The procedure to upgrade MMAP has changed. For information about how to upgrade from MMAP 12.2 to MMAP 12.3, refer to the *Media Management and Analysis Platform Installation Guide*.
