Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

You can check for more recent versions of a document through the MySupport portal. Many areas of the portal, including the one for documentation, require you to sign in with a Software Passport. If you need a Passport, you can create one when prompted to sign in.

Additionally, if you subscribe to the appropriate product support service, you will receive new or updated editions of documentation. Contact your Micro Focus sales representative for details.

Support

Visit the MySupport portal to access contact information and details about the products, services, and support that Micro Focus offers.

This portal also provides customer self-solve capabilities. It gives you a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the MySupport portal to:

- Search for knowledge documents of interest
- Access product documentation
- View software vulnerability alerts
- Enter into discussions with other software customers
- Download software patches
- Manage software licenses, downloads, and support contracts
- Submit and track service requests
- Contact customer support
- View information about all services that Support offers

Many areas of the portal require you to sign in with a Software Passport. If you need a Passport, you can create one when prompted to sign in. To learn about the different access levels the portal uses, see the Access Levels descriptions.

Compatibility

This section provides information about software and configurations that are not required, but which are compatible with Structured Data Manager 7.61.

Free text search

Structured Data Manager 7.61 works with the following applications that provide free text search.

- IDOL 10.7
- Solr 7.2.1
- Elastic Search 6.1.2

Micro Focus software integrations

Structured Data Manager 7.61 integrates with the following Micro Focus products:

- **Storage adapters for database to file archiving**
  - Digital Safe 7.8.2
- **Records Manager Targets**
  - Content Manager 9.3
  - Content Manager 9.2
  - Content Manager 9.1
- **Masking server**

  Voltage SecureData Enterprise

  > **NOTE:** For this integration to work, ensure to install Voltage SecureData SimpleAPI version 5.20 or above on the SDM machine.

Cloud platforms

Structured Data Manager 7.61 supports the following cloud platform:

- Amazon Simple Storage Service (Amazon S3)

Enterprise applications and integration packs

Structured Data Manager 7.61 integrates with the following third-party enterprise applications and provides pre-built modules ('Integration Packs') for each one.

- Oracle E-Business Suite (OEBS integration packs)

- PeopleSoft Enterprise (PeopleSoft integration packs)

Integration Packs for these enterprise applications allow for rapid implementation in environments running the applications and address the most common high-growth areas in those applications. Each Integration Pack supports a specific version of the supported enterprise application, as detailed in the following tables.

> **NOTE:**
> If the tables indicate support is not available for the version of enterprise software you are using, contact your SDM Product Marketing/Management representative—pre-built modules can be made available according to demand. Additionally, the Micro Focus Software Professional Services organization can deliver services-based solutions to address other areas with these enterprise applications, including custom tables.
